

Prior to each year of hosting a camp/clinic, the Camp Administrator must review the summary of NCAA and institutional rules and regulations pertaining to camps, sign the certification statement below and submit it to the Compliance Office. The Head Coach and Camp Administrator are ultimately responsible for conducting the camp/clinic within the applicable NCAA rules and regulations. Should there be any questions regarding these rules and regulations, please contact the Compliance Office.

By signing below, I acknowledge I have thoroughly reviewed the NCAA and institutional rules summary pertaining to camps and clinics and have discussed any questions regarding NCAA rules and regulations with regard to sport camps/clinics with the Compliance Office.

I also I understand all employees of the camp/clinic who are EPA status with NC State, including myself, must complete an online form for Notice of Intent (NOI) and Conflict of Interest (COI). Failure to do so can result in disciplinary actions taken against each employee, and that I will be responsible for informing all individuals effected by such. Failure to do so is a violation of NCAA Bylaw 11.2.2 (page 51).
